Bring Listings to Life and Identify Potential Buyers

A 2020 Icovia planner allows prospective buyers to interact with floor plans launched from your existing online property listings.

Buyers browse detailed floor plans branded with your corporate identity and create customized layouts with furniture arrangements to confirm the space fits their needs. Users who save, print or share their floor plans are required to register. Your agents are alerted with contact information and details about the properties they've shown interest in.

Join the list of leading companies that use a 2020 Icovia Real Estate planner to convert web traffic into contact lists of potential buyers.

Publish Interactive Floor Plans in Minutes

A 2020 Icovia Real Estate Edition space planner is a breeze to setup. Just add links created in the planner to your existing property listings and customers can instantly launch interactive floor plans directly from your website. The planner takes care of the rest from registration to the automated delivery of registered contacts.

Easily Create Floor Plans

Point and click to add walls and drag-and-drop windows, doors and other items. Plans can be added by your agents, a measuring service, or by the 2020 design team.

Integrate Photos and Tours

2020 Icovia space planning combines function and finesse to make your property shine. Include photos, panoramas and virtual tours of your properties and watch your listings come to life.

Integrated Reporting Tool

Your subscription includes access to a powerful reporting tool, which gives you real-time access to user registration data and performance metrics for your property listings. Quickly identify top properties and potential buyers.
