

Actively Supported Operating Systems

PC Operating Systems (64 bit only)

- Windows 10
(Excluding Windows 10 S mode and Windows 10 mobile)
- Windows Server 2019, with Desktop Experience
(Excluding 'Nano-Server')
- Windows Server 2016, with Desktop Experience
(Excluding 'Nano-Server')

Mac Operating Systems (64 bit only)

- Mac OS X 10.14 (Mojave) or newer WITH Boot Camp 6.1 or newer AND Windows 10
(Excluding Windows 10 S mode and Windows 10 mobile)

Hardware Recommendations

- Processor: INTEL i5 (7th generation), or greater*
- Memory: 8GB RAM, or greater
- Hard Disk**: 500GB HDD, or greater (7200 RPM Desktop, 5400 Mobile), or 128GB SSD, or greater
- Network Card: On board 100 or 1000 Mbps LAN, or greater
- Internet: 2MB Broadband, or greater
- Video Card: Dedicated 2GB Graphics Card***, or greater, supporting DirectX 11, with its latest driver installed
- Monitor: 1920 x 1080 Screen Resolution, or greater
- Security Device ('dongle'): Free USB port ('Standard Type A') to connect the 2020 Fusion license

* Note: 2020 Fusion has been specifically optimised and tested to operate using processors with support for SSE, AVX, AVX2, or AVX-512.

** A typical 2020 Fusion installation, inclusive of application, a selection of catalogues and a customer database, would require in the region of 7-8GB of disk space. However, if ALL available catalogues are installed, then up to 30GB of disk space would be required.

*** Note: For users working with a high-resolution screen (i.e. at a resolution greater than 1920 x 1080), a dedicated 4GB Graphics Card is recommended. Please refer to the graphics card section for examples of contemporary graphics card series recommended for use with 2020 Fusion.

Recommended Graphics Cards

Contemporary examples of recommended graphics card series (and some models) are as follows, but please note that this is not a comprehensive list. In addition, please be aware that some of the recommended series may also include models at less than our recommended 2GB; these are not recommended. Please also ensure that the graphics card driver is also kept up to date to ensure optimum performance.
